

# OUR DESSERT WINES

## LATE HARVESTS

Grapes for these wines are left on the vine after their normal harvest date. This causes the berries to shrivel and create more complex and concentrated flavours.

**Riesling Late Harvest** [sweet] **+624429**  
Intense in bouquet and laced with hints of peach, nectarine and green apple. The fresh, crisp acidity is complemented by a honeyed late harvest character.

**Cabernet Franc Late Harvest** [sweet] **+733766**  
On the palate, aromas of red currants, blackberries and cherries are evident. The complexity of sweetness and delicate soft tannins lends structure, and finishes the wine in a balanced lingering fashion.

## ICEWINES

Grapes for these wines are picked at -8°C or colder; cold enough to solidify the berries. During pressing, sugars, acids and flavour components slowly drip out, while leaving water as ice in the press. A natural concentration occurs without altering the delicate fruit flavours. The coolest wine on earth!

**Minus 9 Ehrenfelser Icewine** [sweet] **+551739**  
Very rich in weight, body and texture. Honeyed aromas of peaches, nectarines and apricots combine with a lively acidity to balance this luscious wine.

**Riesling Icewine** [sweet] **+504860**  
Fragrant aromas of peach, pink grapefruit and honeyed green apple. A great balance of sweetness and acidity.

**Cabernet Franc Icewine** [sweet] **+586131**  
Red icewines are fairly unique, since traditionally icewines have been white. Rich soft tannins balance this wine, resulting in a symphony of flavours; reminiscent of a port, but with more initial fruit flavour.

Passionate winemaking has been reflected in wines of unparalleled consistency and excellence ever since inception.

The Gehringer style has evolved to be known as a symbiosis of terroir, ripe sweet fruit and firm acidity. This dedication to capture the essence of the grape has crafted a tradition, consistently attaining VQA status and winning numerous awards.
